25X1

[ ] was told to put a block diagram of the system in the report plus appropriate explanation of it. [ ] was requested to put a glossary of terms in the report so that anyone not familiar with the field could determine the meaning of some of the terms used. Finally, [ ] was told to include in the report, the system's capabilities in [ ]

25X1

The schematics of the system will not be put in the report, since it would make the report very bulky. However, [ ] was informed that the schematics must be put in order for delivery to the sponsor. [ ] stated that they would store the breadboard system in their classified vault, awaiting disposal orders from the sponsor.
